

## Genesis Trojan Database Update CD Instructions

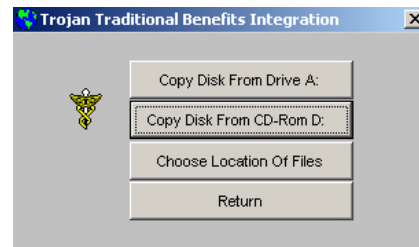

1. Enter your Genesis Program. Once you're in the Genesis Program click on **Misc.** Highlight to option 18 **Update Trojan Plans**. Click OK

2. You will be prompted with the last date you ran an update. If this is correct, and you would like to update your benefits click, **<Yes** to continue.

3. When you are prompted to choose the location of your updates, select the **Copy Disk From CD - Rom** option.

4. You will be prompted the insert the Trojan Update CD. Insert CD and click OK. Your update will begin automatically.
5. Follow the prompts to remove the Trojan CD and click **YES** to continue.
6. When the update is complete, click on **OK**. You will then click **Return**, and **Exit** to exit from the Genesis program. Updating your Practice Management System with the latest Trojan Benefits is now finished.
