

Eaglesoft Trojan Database Linking a Trojan plan to your Patient

1. In patient's **Edit** screen, either click on **Employer** hyperlink or put cursor in **Employer field** and hit **<F2>**.
2. Eaglesoft's Employers / Coverage List screen will appear.
3. If the plan is not already there, click the Trojan icon
4. Search for Employer (use **TAB** key after entering search information).

5. When desired plan is located, highlight it and click USE
6. You will now have a choice to Overwrite a plan or Add a new plan. Always choose to **ADD NEW**

☐ Overwrite an Existing Employer
 ☒ Add as New Employer

7. This will add the plan to Eaglesoft's Employers / Coverage List.
8. Highlight the plan you just added from Trojan and click **USE**
9. This will bring you back to patient's screen with new employer and benefits attached.

Note: In the Trojan Employer, if you see a plan in **RED** then that plan has already been moved from Trojan to your Eaglesoft. The plan cannot be used again. Look for the plan in your Eaglesoft's Employer/Coverage List.
