

EagleSoft Trojan Database Update & Traditional Plans CD Instructions

1. Click Start > Programs > EagleSoft > EagleSoft> Trojan Employer Upload Icon
2. The first screen you will see when you have entered the EagleSoft Upload will prompt you for a location of the file to update. In the space provided type in “**D:**” (Your CD Drive letter may vary). Be sure to type in the drive letter. **Do Not Browse.**

3. Click on <NEXT>.

4. The upload will begin and the next screen you will see will ask if you have any more disks to copy, click on <No>.

5. When you are prompted to verify that you are finished, select <Yes>. You will then be notified that EagleSoft is going to update your EagleSoft Database. Select <OK> to proceed.

6. The upload process will begin and you should see this screen while your update is being processed.

7. When prompted, click <OK>. The update is finished.
