

Softdent Trojan Managed Care Database CD Update Instructions

All other computers must be completely out of Softdent during the entire update process. This could take some time to process.

1. Check the CD for damage that may have been suffered in shipping.
2. From Softdent main screen, choose **File**. (Fig. 1)
3. Touch **Trojan** (near the bottom).
4. Click **Monthly Update**.
5. *Check* **Load Managed Care Plan Disks**
Uncheck **Load Traditional Plan Disks**. (Fig. 2)
6. Make sure **Enter Disk Drive to Load from** is D (or whatever your CD drive is. Click the drive letter to be sure it is highlighted).
7. Click **<OK>**. Screen prompts user to insert disk #1 **<OK>**

Uncheck Traditional Plans for Managed Care update

8. The CD will copy. When prompted to change disks click **<No>** to begin the update process. Message appears, "Ok to update Softdent plans?" **<yes>**

Do not interrupt the update process
