

Computer Age Trojan Monthly Managed Care Update Instructions

All computers must be out of the Computer Age program during the entire update process

1. Check the diskette or CD for damage suffered during shipping. If damaged **do not use**
2. From Computer Age Utilities menu, select **Load Trojan / Other Software**
3. Select **Managed Care Load/ Update**
4. Put the diskette or CD in the computer
5. Select where the Trojan disk is, click on the down arrow and select **CD drive A:** (It may already be defaulted to this drive) click **OK**.

6. When the disk has finished copying, select **Finished**
7. The update will begin processing

Close the Utilities menus. Computer Age can again be used on all computers.
