

### Genesis Trojan Database Update Electronic Download Instructions

1. Double click the **Trojan Communicator\*** icon  located on your desktop. Click **Download Now**. This will connect to Trojan and Start to transfer the requested update files.
2. Once the transfer has finished, click on the first option that appears on your screen. **Click here to minimize this program**

1) Click here to minimize this program

3. Open the Genesis Program, choose **Misc.**, select 18 **Update Trojan Plans**
4. Confirm the last date you updated, then select the location of the update files.

5. Next, select the folder [your Genesis Drive]: \GENWIN\TROJAN\ and click on **Select**. (In this example the drive is C.) When the update completes, exit the Genesis program, then return and your Trojan benefit data will be updated.
6. Click on the Trojan Communicator, which was minimized in step 2. Select option 2 **Click here only after you have processed the Trojan update!**

2)Click here only After you have processed the Trojan Update!

7. Confirm that you have processed the Trojan Update by clicking **YES**.
